

FIRST SALE OF SUPPLIES MADE TO AID MEXICO

Enfield Rifles, Ammunition, and Eight Airplanes Sold

WASHINGTON, Jan. 4. (AP)—Sale of 5,000 Enfield rifles, 5,000,000 rounds of ammunition and eight DH-4 airplanes to the Mexican government was announced today by Secretary Weeks.

The transaction was completed during the day when word came by wire to Mexican agents that the government had transferred funds necessary to make one half of the payment in cash, the balance to be paid within thirty days. The terms fixed by Secretary Weeks were equivalent to a cash transaction and were accepted by the Mexican government paying the way for immediate delivery of the war material at the army depots where they are stored.

Under the terms of the sale the war department will turn over the rifles and ammunition at Fort Sam Houston and Fort Bliss while the airplanes will be delivered from the depot at Fairfield, Ohio. The Mexican government will make its own arrangements for shipment to the border. Orders were issued at once for delivery of the material.

Amount Estimated
Although the statement issued by Secretary Weeks did not disclose the total amount of money involved in the sale on the basis of prevailing prices it would appear to be less than \$400,000, as Enfield rifles sell at about \$35 each and surplus ammunition at about \$18 per thousand rounds while the airplanes would be valued at about \$12,000 each.

Mr. Weeks did not say what other equipment the Mexican government had asked for in its original list. He said, however, that the airplanes to be sold were not equipped with machine guns or other armament and that any proposal to so equip them before delivery would be supplemental to the present deal.

The Enfield rifles were turned out after the United States entered the war to supplement the supply of Springfield rifles and since have been recalled from service and stored as surplus.

The ammunition also will come from surplus stocks and so far as is known there has been no important deterioration in it.

The airplanes were manufactured in this country in the closing days of the war and are equipped with Liberty Motors. They are two-seaters and well qualified for scouting and communications work.

White House Attitude

An authorized statement of the administration attitude available at the white house made it plain that the purpose of the Washington government was wholly one of aiding another neighbor state in the maintenance of order and governmental stability within its own borders.

The administration viewpoint is that the United States government must stand ready to give its aid thru the sale of necessary military supplies to any neighboring state which needs the equipment for police purposes.

In a general way, however, the Washington government is standing ready to aid in every reasonable way the task of maintaining governmental stability and the processes of constitutional law and order thruout the Pan-American countries. If an European situation arose it would be much slower to act favorably upon an application to purchase war materials.

SINCLAIR TESTIFIES IN TEAPOT DOME OIL QUIZ AT WASHINGTON

Finally Decides to Divulge
"Private Business Affairs"

WASHINGTON, Jan. 4. — Appearing probably for the last time before the senate public lands committee in its investigation of naval oil reserve leases Harry F. Sinclair oil promoter and lessee of the Teapot Dome reserve today gave details of the organization of corporations based upon that lease. What was regarded as similar information had been refused by the witness during his previous appearance before the committee on the ground that it concerned "the private business affairs" of himself and his associates.

Names and holdings of those corporations of the Mammoth Oil Syndicate and the consideration paid for their stock were included by Mr. Sinclair in his replies to questions today, as well as information relating to intricate stock exchanges between the Mammoth Oil company, Hyva Corporation and other companies and individuals which he said resulted in a present credit of \$2,000,000 to the Hyva concern.

W. H. McFarren, an expert geologist and examiner of the general land office followed Mr. Sinclair before the committee and recounted the history of sections 16 and 36, in naval reserve No. 1, Elk Hills, California, the transfer of which to the state, has been frequently referred to in the course of the inquiry. Although once withdrawn as mineral lands he said, these tracts were subsequently re-opened to entry and the state's title had been upheld after a hearing conducted by Albert B. Hall as secretary of the interior.

Pointing out that the record of that hearing indicated the only evidence adduced was a brief by representatives of the Standard Oil company of California the present holders.

Senator Walsh, Democrat, emphasized that no rebuttal testimony had been offered.

When it adjourned the committee was prepared to continue tomorrow its inquiry into the geological history of the California reserve.

MEXICAN SECRETARY DECLARES REELLION WILL SOON BE OVER

Says Government Will Control Situation in Two Months

MEXICO CITY, Jan. 4. — Via Laredo—(A. P.)—General Arango Serrano, secretary of war, declared in an interview today that the government would dominate the revolution within two months. There have been no important military action the last few days he said on account of the government's desire to concentrate its forces at both the Jalisco and Vera Cruz fronts, to repair the railways and to get everything in readiness for decisive simultaneous battles.

The Jalisco rebels are the best organized and the most dangerous according to Serrano, who stated that they number between four or five thousand. The Vera Cruz revolution will not survive a single decisive blow, he declared.

Relative to the alarming reports received of the conditions in the Tampico military region, Serrano asserted that General Luis Guterres and Juan Espinosa Coroba were advancing on Tuxpam and other rebel centers.

General Miguel Asostia, first secretary of war, stated tonight regarding the report that Tampico had fallen into rebel hands, flatly denied the report.

ANNOUNCES GOVERNMENT WILL APPEAL CASE

Washington, Jan. 4. — Attorney General Daugherty in a statement tonight regarding the decision of Federal Judge Morris at Wilmington, Del., yesterday, dismissing the government's suit to force return of the seized enemy dye and chemical patents sold to the Chemical Foundation, Inc., by the alien property custodian, declared the government "will promptly appeal the case."

It is prepared he said, to continue this litigation to a decision of the United States supreme court.

ILLINOIS CHIEF HIGHWAY ENGINEER TO RESIGN

Springfield, Ill., Jan. 4. — Clifford Older, chief highway engineer of the Illinois highway commission tonight announced he will resign his post Monday. Older declares his resignation will be in the hands of Colonel C. R. Miller, state director of public works and buildings by that time. Mr. Older declares he will engage in private engineering work.

WOUNDED MISSIONARIES TO BE RETURNED

Grand Forks, N. D., Jan. 4. — Professor and Mrs. Bernard Hoff, American missionaries wounded by Chinese bandits recently, will be returned to this country as soon as they recover from their injuries. It was decided by the mission board of the church of Lutheran Brethren of the United States here today.

COOLIDGE WANTS CONSIDERATION OF TAXES FIRST

Fight is Made to Postpone Action on Soldier Bonus

WASHINGTON, Jan. 4. (AP)—President Coolidge is opposed to any attempt by congress to alter the essential provisions of the administration's tax bill.

This announcement was made today at the white house as the house ways and means committee continued its consideration of the measure and Republican leaders of the house redoubled their efforts to postpone action on the soldiers' bonus until something affirmative is done on tax revision.

Mr. Coolidge, it was asserted has confidence that congress can be depended upon to refuse compromise in principle and to translate into law the will of the people. The president it was said will make no effort to bring pressure upon individual members of congress in support of his views.

Outstanding in the developments of the ways and means committee's consideration of the draft submitted by the treasury was the rejection of an amendment to make gains from stock dividends subject to the regular income taxes.

Representative Rainey, Democrat, Illinois proposed the amendment which was voted down 12 to 11. He announced later he would bring up the question again.

If the bill is not amended in this respect gains from the sale of stock dividends after two years will be taxed only to maximum of 12 1-2 percent the regular normal and surtax rates prevailing within the two year period.

The Republican steering committee of the house seemed inclined to postpone a showdown on the bonus and leaders got into touch with Republican former service men who are demanding a party conference next Thursday on the question.

Representative Longworth, Republican leader declared he favored postponement of the conference until the ways and means committee had ample opportunity to act on the tax bill.

Representatives who have been circulating petitions for the conference said that they had more than enough signatures.

BLOOMINGTON MAYOR SUMMONED BY DEATH

BLOOMINGTON, Ill., Jan. 4. — Frank E. Shortness, 59 years old, mayor of Bloomington, died at his home here tonight after an extended illness, with cirrhosis of the liver. Bells of the city tolled, announcing his death.

A veteran railroad man and one of the most trustworthy engineers on the Chicago & Alton railroad, he had never aspired to public office before last spring. His friends induced him to run on the Republican ticket and he won the mayoralty race by a large majority.

He was born on a farm near Danvers and spent some years of his life farming. In 1903 he started as fireman on the C. & A. railroad and three years later was promoted to engineer. He maintained his connection with the road until his death. A year ago he was called back to the throttle several times to take out special trains.

Surviving are the widow, a brother, Andrew Shortness, of Bloomington; two sisters, Mrs. Josephine Hartsook, Los Angeles, Calif. and Mrs. Alice Dickinson, Seward, Nebraska.

RUSSIA SAYS HUGHES WILL COME TO TIME

MOSCOW, Jan. 4. — (A. P.) — Commenting on published extracts from the senatorial report on Russia's debt to America, M. Stekoloff, editor of Izvestia, writes in today's issue:

"Secretary Hughes' haughty refusal of M. Tchitcherin's offer to negotiate on a mutual basis now is explained as being behind his melodramatics. Mr. Hughes hides his hopelessness to make out a case against Russia's counter claims. Mr. Hughes intends to demand payments from the Russian people for value which Russia has not received from America but which the American rulers wastefully squandered of their own free will on Russia's account."

"Sooner or later Mr. Hughes will have to agree to negotiate on a mutual basis, and will seriously have to take into consideration our counter claims for America's intervening in our internal affairs."

Miss Eva Viers, superintendent of the Social Service league made a business trip to Springfield yesterday.

Sarcophagus Of King Tutenkhamun Located

LUXOR, Egypt, Jan. 4. (AP)—With the discovery of the colossal sarcophagus of Tutenkhamun inclosed in a nest of four wonderful shrines, the question whether the mortal remains of the Pharaoh lie in this mortuary chapel has finally been decided. The sarcophagus has remained intact thru thirty centuries, unviolated by the sacrilegious hand of tomb robbers.

Howard Carter, when by the light of its powerful rays the looted seals of the fourth golden casket, to gaze on the outline of a huge stone coffin of pink granite quarried at Assuan, must have felt something like Brugsch, the German Egyptologist died when by candle light in the Der-El-Bahari sepulchre some years ago read the cartouches of more than thirty kings and queens of ancient Egypt hidden there.

Here was different confirmation that for the first time in the history of the ancient sepulchre of a king of unlooted Egypt had been discovered. Here, in a coffin of graven stone, of workmanship rivaling the greatest masterpieces must undoubtedly lie, encased in magnificently decorated mummy cases, the body of the king as the priests laid him to rest more than 3,000 years ago.

In the valley of the tombs of the kings hopes were high today that when the sarcophagus and its mummy case are opened the mummy will be disclosed surrounded by full panoply of the king's royal and sacred office.

Owing to the vast dimensions of the outer canopy which is quite dwarfed by the proportions of the sepulchre chamber the excavators came upon the sarcophagus with some surprise. It was encased in the fourth of a nest of four shrines, an agreement different from anything yet discovered. All the shrines are profusely gilded and the fourth, like the preceding ones is abundantly decorated with cartouches.

London, Jan. 4. — According to a dispatch to the Exchange Telegraph from Luxor, exquisite gems are set in rich profusion around the sarcophagus of Tutenkhamun.

BANK WITNESSES IN SMALL CASE UNABLE TO VERIFY FIGURES

None Able to State How Interest Money Was Handled

CHICAGO, Jan. 4. — Three witnesses were called today to testify in the civil actions to force an accounting by Governor Small of all interest funds paid on state deposits during his term as state treasurer. Former employees of the Fort Dearborn National Bank of Chicago, called by representatives of the attorney general identified bank forms involved in transactions purporting to involve state funds, but none was able to describe the transactions from a personal recollection. It was brought out on cross examination by Attorneys W. W. Schroeder and Thomas Masters, of Springfield, representing the governor. The hearings were continued today and next Monday.

Ernest C. Dose, formerly assistant auditor of the Fort Dearborn Bank, told this afternoon of his handling of state interest drafts during the governor's treasurer term. He could not swear, he said, that the amounts of earned interest indicated on the ledger sheets ever had been mailed by the bank.

On cross-examination concerning the ledger sheets, the witness declared he did not know where the records had been during the past year, or how the pencil notations and corrections came about. He was unable to testify that the figures showing the balances in the state account were correct.

CANAL DETRIMENT TO MIDWEST SHIPPERS

CHICAGO, Jan. 4. — Shippers of the middle west are losing trade to the Pacific Coast by reason of their being unable to meet the competitive rates of carriers using the Panama Canal, witnesses before the interstate commerce commission testified today. The hearing is on the application of transcontinental freight bureau seeking reduction of rates for some ninety commodities consigned to Pacific Coast points to meet competitive water rates.

J. P. Haynes, traffic director of the Chicago association of Commerce representing shippers, other shippers and some 150,000 shippers, followed operating officials of steamship lines and railroads to the stand today.

He declared that in all fairness to the shippers of the countries as a whole and to the railroads the commission should waive the long and short haul clause of the law and allow carriers to put into effect tariffs that would save the economic life of the central part of the country without undue injury to any other section.

The testimony today was expected to conclude the hearing. The next hearing has been set for January 14 at Salt Lake City.

SAY IOWA CORONER FREE WITH PRESCRIPTIONS

Cedar Rapids, Iowa, Jan. 4. — Federal indictments, drawn by the U. S. District Attorney, G. P. Linville, were served tonight on Dr. R. A. Vorpahl, county coroner and Dr. John Redmond, charging them with violation of the liquor prescription statute.

KORETZ BELIEVED TO HAVE BEEN IN TEXAS

Austin, Texas, Jan. 4. — A man answering in every detail the description of Leo Koretz of Chicago sought by police in connection with alleged defrauding schemes was seen in Austin several days before description and photographs of the missing man were received. Police Detective William Scott declared here today.

ESSINGTON SAYS HARD ROADS ARE NOT MAIN ISSUE

Declares He Will Follow Program if He is Elected

BLOOMINGTON, Ill., Jan. 4. — State Senator Thurlow G. Essington, candidate for the Republican nomination for governor in addressing a meeting here today declared the hard roads issue is not a political one, declaring that he stood in favor of a hard road program.

"Both Republicans and Democrats use the roads. Both are helping to pay for them."

"If the \$100,000,000 bond issue passes that mandate will be carried out in every particular, if I am elected governor. That money will be used for hard roads. If it fails to carry, every dollar the state can well afford to pay for road will be used."

He declared he stood in favor of hard roads thruout the state, honestly and economically built, "without their location or construction depending on the way the people voted."

The Essington League of the Seventeenth Congressional District was formed here this afternoon at a meeting of representatives from the five counties comprising the district. Its purpose is to promote the candidacy of Senator Essington for the Republican nomination for governor. The chairman elected for the district counties are as follows:

McLean, Park Enlow; Livingston, B. R. Thompson; Logan, C. E. Gullett; Ford, Dr. J. Y. Sham; Woodford, Dr. Fred A. Wilcox. Senator Essington addressed two meetings in this city today. He spoke to women in the afternoon and to a mass meeting this evening at the high school auditorium.

UNIQUE RADIO TEST MADE UNDER RIVER IN NEW YORK CITY

Concerts Clearly Heard 90 Feet Below Hudson River

NEW YORK, Jan. 4. (AP)—Huddled in a dripping tunnel, 90 feet below the surface of the Hudson river and 1600 feet from an exit, a group of transit officials, electrical experts, "sand hogs" and newspapermen today tuned in on radio concerts broadcast from Pittsburgh and a half dozen nearer stations.

The experiment was conducted at the farthest end of the uncompleted Jersey Manhattan tube of the Dual Vehicular Tunnel by technicians of the Radio Corporation of America, the Westinghouse Electric Manufacturing company and the New York and New Jersey Bridge and Tunnel companies.

The radio programs were heard distinctly both by ear phone and loud speaker. The fact that the other vibrations carried into the tunnel, penetrating 30 feet of water, sixty feet of earth and several inches of steel, demonstrated, experiment, in charge of the project, that the radio could be used as a method of communication by submerged miners or deep sea divers.

Today's test—called the first successful underground reception of radio was conducted with standard stock apparatus. The Pittsburgh music came clearly and with normal intensity over the head phones, the local concerts however, came so loudly over the amplifiers that they were heard 200 feet away from the instrument.

JACKSONVILLE BOY IN IMPORTANT POST

CHICAGO, Jan. 4. (AP)—William S. Elliott of Winnetka, Ill., today was elected as general counsel of the International Harvester company succeeding the late William B. McLaughlin, according to an announcement tonight by Cyrus H. McCormick, chairman of the board.

Mr. Elliott was born at Jacksonville, Illinois.

Mr. Elliott is the younger son of Mr. and Mrs. Frank Elliott of this city. After finishing his course at Illinois college he went to an eastern university and subsequently began the practice of law in Chicago. In recent years he has been a member of one of the strong law firms of Chicago.

MAN IS IDENTIFIED BY DARNING IN SOCK

Springfield, Ill., Jan. 4. — Darning on one sock led to the identification of a man killed yesterday by a train at Hillsboro. He is Battista Buco of Panama. His sister, with whom he lived when he was a boy, saw the man who was identified by the darning on his sock, as her brother.

DINES CASE BECOMES MORE DIFFICULT AS STORIES ARE HEARD

All Witnesses Have Different Tales Regarding Tragedy

LOS ANGELES, Cal., Jan. 4. — Discrepancies in the various stories told of the shooting of Courtland S. Dines, Denver oil operators, contradictions in statements made by the several persons present in Dines' apartment when the shooting occurred; and unexplained circumstances attending the affair still baffled the authorities.

Hercase A. Greer, alias Joe Kelly, chauffeur for Mabel Normand, film actress who was in Dines' apartment with Edna Purviance, another film actress, says he shot Dines.

Greer, Dines and the two women all disagree on their positions in the Dines' apartment when the trigger was pulled.

Greer says he shot when he saw Dines reach for a bottle to strike him. Dines says he made no threatening move.

Edna Purviance and the police declared that Greer, jealous of Mabel Normand's presence in Dines' apartment and infatuated with her turned the gun on his supposed rival. Miss Normand and Greer deny it.

Mabel Normand at first said that Dines and Edna Purviance were engaged to be married. The latter tacitly admitted it then later corrected her admission.

The women said they heard no dispute prior to the firing of the shots. Each declared she was out of the rooms at the time. Greer asserts that there was a dispute. Dines says he and Miss Normand were discussing a subject.

Greer says Mrs. Edith Burns, companion of Miss Normand, telephoning to Dines' apartment heard a man there say Miss Normand could not go home and repeated the remark to Greer.

Mrs. Burns counters with a flat denial that she made such a remark to Greer or saw him get the gun. Greer was arraigned today and his preliminary examination set for January 11, providing Dines will be able to appear at that time.

Sacramento, Calif., Jan. 4. — The manager of a local motion picture theater announced today that he had cancelled the booking of a recent film in which Miss Mabel Normand portrays a leading part.

Columbus, Jan. 4. — Attorney General C. C. Crabbe, today "urgently requested" that all films in which Mabel Normand appears be barred in Ohio, in a letter directed to Director of Education Vernon M. Reigel under whose direction censorship is conducted.

PRODUCERS OF MILK NEAR CHICAGO WILL ARBITRATE TROUBLE

Most of City Supply Now Coming from Outer District

CHICAGO, Jan. 4. (AP)—Milk producers in Chicago area who have gone on strike by refusing to supply large distributors because the dealers will not pay the price demanded by the farmers tonight agreed to submit their case to a board of arbitration composed of the city health commissioner, state's attorney, chief justice of the municipal court and representatives of the Chicago association of Commerce, city council and high costs committee of the council.

The offer came after Joseph Rushkoff, secretary of the high costs committee appeared at the Milk Producers' association headquarters and demanded to know why he the state's attorney and the health commissioner had not been called into the original conference between producers and distributors.

The producers declared that milk withdrawn from the Chicago area today totaled about 700,000 quarts but that the consumers received milk as of the usual Herman Bundesen, city health commissioner declared that forty percent of the milk came from outside Chicago health zone. Two carloads of milk from Grand Lodge, consigned to the Bowman Dairy company were rejected by inspectors and Dr. Bundesen declared that inspection of all milk would be rigid.

BUILDING OF NEW YORK WORLD DAMAGED

NEW YORK, Jan. 4. — Flames, starting from a short circuit in the press room of the New York World in the basement of the Pulitzer building tonight shot up an elevator shaft to the top of the fourteen story building engendering dense smoke which forced a general evacuation of the editorial and composing rooms in the upper stories.

Firemen controlled the fire in an hour and employees of the newspaper returned to their work. It was announced, however, that the damage would not interfere with publication of the paper.

CREWS CONTINUE HUNT FOR DEAD IN PEKIN FIRE

Manager Says Six are Dead and Twenty-Six Still Missing

PEKIN, Ill., Jan. 4. (A. P.) — Death hovered about the home of the Glazebrook family of Pekin tonight, as the name of Frank Glazebrook, the head of that household was made a new addition to the list of the "missing" and physicians announced there was practically no hope for his son, Virden Glazebrook.

This new tragedy made no alteration in the semi-official announcement as Frank Glazebrook's reported death beneath the ruins of the Corn Products company, was offset by the removal of the name of Charles Graham. Mr. Graham's daughter read his name in the list of missing and got him from the bed where he lay bandaged from burns, to report in person at the company office.

Search of the ruins late tonight had produced nothing new it was officially reported.

PEKIN, Ill., Jan. 4. (A. P.) — Crawling on hands and knees, workmen continued a careful search for the bodies of 20 or more of their ill-fated "buddies" of the Corn Products company here, late today. While the only official statement was that only two bodies have been recovered, workmen talked among themselves of five others taken from the ruins during last night.

Today should have been paid day. Grief-stricken women made inquiries while daylight lasted and were told sympathetically that two week's pay would be given them tomorrow.

"His last pay," one mother murmured as she turned from the policeman's office.

Relief for all families that are needed was planned today by the Pekin Chamber of Commerce, but it was found on investigation that nearly all the victims of the disaster were thirty Americans who had neat sums laid by and homes secured, probably against such an emergency as this.

First funeral services were arranged for tomorrow, when the body of Lee Harding will be borne to the grave.

The coroner's inquiry will also start tomorrow and probably three other inquiries. Superintendent H. B. Lawton said he would call eye witnesses of the disaster into his office and attempt to get a distinct idea of the explosion, which until today he said, he had been unable to obtain, so various and conflicting were the reports.

"I am inclined to believe," he said, "that the reported number of dead will dwindle some. Since yesterday we have marked two from the list of missing. They had worked 24 hours without stopping, having joined one of the hose gangs as soon as their work in the plant was stopped."

Federal investigation will start late tomorrow with the arrival of B. J. Price and two assistants, from the division of chemistry as Washington, D. C., who wired they would reach Pekin Saturday afternoon. The third investigation is being conducted by the state.

Dangers Encountered
Bitter cold and the danger that a four story cupola still overhanging the ruins might topple down, late today made the work of searchers arduous in the extreme. They relieved each other in squads, alternately warming themselves at convenient fires.

The search enclosure was continued this labor of sympathy, were huddled small groups of sorrowing relatives, who thruout the day brought the same furtive query:

"Have you found him?"

And received the same hopeless answer.

The body of William Ruml, whose high forehead led to identification, was removed from the wreckage this afternoon. He leaves a widow and three children.

One of his hands held a piece of brick in a death grasp.

Earlier semi-official reports that other bodies had been uncovered were due to duplication, it was explained. Tonight employment manager Frank Velds said his best information was that six are known dead and 26 are buried under the debris, and are counted as "missing."

State Fire Chief J. A. Kelly of the Smackover district, Arkansas, was on the scene today learning Illinois methods of fighting fire.

Burning of the seven carloads of burlap sacks, seemed to him, he said, very much like the burning of cotton, which is almost impossible to extinguish. This disaster has caused no loss of work to Pekin's bread winners.

It was announced that all the men who reported for work, had been given a shovel, a hose or a pick and placed in the gang clearing the wreckage. Tonight notwithstanding the severity of the cold, 100 men continued their struggle with the fire and their search for bodies.

This extreme cold weather supports the theory that weather affairs are eventually pretty well averaged. Look up the record for a period of years and you will find that when totals relating to heat and cold are made up that the seasons haven't changed.

A government report shows that during 1923 the public debt was reduced by \$400,000,000. The average individual knows that is a wonderful showing and yet is hardly able to figure out how he will personally benefit by the reduction unless his own taxes are so reduced.

Representative Upshaw's dry program in congress is too drastic in some of its details. But why not carry out his idea of denying the floor of the house to congressmen who violate provisions of the prohibition law? There have been too many congressmen in Washington who vote dry and live the other way. It is too bad that after most everybody had forgotten Harry K. Thaw and the unfortunate happenings connected with his name that he should again have his name in the public print. Thaw is seeking to be released from an insane hospital and restored to the rights of citizenship. He is where he belongs.

WASTE OF A QUARTER OF A BILLION
More than 22,000,000 children were enrolled in the public schools of the United States last year. For the whole country, urban and rural, the schools were open an average of about eight months. Nearly 700,000 teachers were employed and this was a sufficient number to instruct every child enrolled every school day of the eight months the schools were in session, according to the U. S. Bureau of Education. By allowing their children to miss school one-quarter of the time parents caused the waste of one-quarter of the money paid to run the schools. The total cost last year in all the states combined was just about one billion dollars. Irregular attendance caused the waste of one-quarter of this immense sum. In plain figures a quarter of a billion looks like this: \$250,000,000. The people who paid the taxes robbed themselves of this amount and at the same time deprived their own children of an average of two months schooling.

hood of nations, founded on some kind of communism. These pilgrims do not get very far, as a rising occurs among the sailors of their vessel who establish the pilgrims on a solitary island. The story satirizes the way in which a communistic principle would work.
While the story was intended as an extravaganza, yet it does suggest the truth that the best work in the world is done by the practical folks who take hold and do the plain simple tasks that need doing, rather than by people who formulate lofty theories. Theory may be good, but unless it is constantly compared with human nature and history it goes far astray from actual life. The theories that look very beautiful on paper, may not work when you try to apply them, because human beings will not always act as they ought to. The world is not usually advanced by sudden and violent changes.
If everyone would work faithfully at their daily tasks, there would not be many evils left for philosophers to theorize about.

TIPS FOR TAXPAYERS
No. 5.
A single person, if the head of a family is allowed the same exemption granted married persons, \$2,000 or \$2,500, according to the amount of net income. A head of a family is a person who actually supports and maintains in one household one or more persons closely related to him by blood, marriage, or adoption and whose right to exercise family control and provide for these dependents is based upon some moral or legal obligation.

More support of relatives does not entitle a taxpayer to a status as the head of a family. The dependent must be a member of the taxpayer's household, and the taxpayer must, in fact, exercise family control over such dependents. In addition to a personal exemption a taxpayer is granted a credit of \$400 for each person depending upon him or her for support if such person is under 18 years of age or incapable of self-support because mentally or physically defective. The term "mentally or physically defective" includes not only cripples and those mentally defective but persons in ill health and the aged.

Such a dependent need not be a relative of the taxpayer, nor need he be a member of the taxpayer's household. A son living in New York, who is the chief support of an aged mother living, without necessity for the separation, in Baltimore is entitled to a credit of \$400. Were the mother a member of the son's New York household, the son, as the head of a family, would be entitled to an exemption of \$2,000 or \$2,500, according to the amount of net income, plus \$400 for a dependent. The \$400 credit does not apply to the wife or husband of a taxpayer, though one may be totally dependent upon the other.

IN NEW HOME
Mr. and Mrs. C. S. Black are now located at their new home, 920 West State street, the property recently purchased from Mr. and Mrs. Parker. This was the first residence change that Mr. Black has made for 50 years, as he moved with his parents to the Black farm when a very small boy.

Although now a Jacksonville citizen, Mr. Black will of course continue to have some interest in farming operations and will visit his sons on the farms north of the city frequently.

William Smith, auditor for the Illinois Telephone Co., of Chicago left for his home in that city yesterday.

"THE SPEED KING"
Speed King is a cracking good picture. The work of the star is by no means ordinary, as most of his feats are "taking chances" in actuality. It is a 50-50 break between comedy and drama with a love story thrown in for good measure.

BERTON BRALEY'S DAILY POEM IN MODERATION
BY BERTON BRALEY
I'm fond of the winter, I like the brisk weather,
It fills all my being with vim and with pep;
It makes my heart light as the usual weather,
It gives a brave swagger and lift to my step.
The beautiful snow has my warm approbation,
When falling it's lovely indeed to behold;
The winter's a season deserving laudation,
Except when it's terribly c-e-c-c-cold.
I'm fond of the winter, my appetite's bigger
For chops and for steaks and for flapjacks and pie,
Which give to my blood an unusual vigor,
A glow to my cheek and a gleam to my eye;
But, oh, when the mercury steadily lingers
Way down below zero, I growl and I scold,
When frozen my nose is, my toes and my fingers,
I'd rather it wasn't so c-e-c-c-cold!
I'm fond of the winter, but not when the blizzard
Sifts snow through each crevice and crack—when the storm
Brings chills to my heart and my lungs and my gizzard
And nothing will keep any domicile warm.
When I and my batteries freeze in the blizzard,
And when, though in seventeen blankets I'm rolled,
I lie in my bed and do nothing but shiver;
I find it gosh awfully c-e-c-c-cold!

STORY OF "THE FOOL" TO BE HEARD AT GRACE
Popular Play With Its Strong Lines
Will Be Sensed Through Lines and Pictures Sunday Night—Other Grace Church Announcements
"The Fool," a play which has had remarkable success in the city theaters in the last two years and has been extensively praised by press and pulpit will be presented with stereopticon slides at Grace M. E. church Sunday night. The pastor, Rev. Harry Lewis, is able to make this presentation by special arrangement with the author of "The Fool." Excerpts from the text of the play will be given and the audience at Grace church Sunday night may expect a very interesting and helpful presentation. "The Fool" has been the subject of sermons in more than 400 prominent churches of all denominations in recent months.

Fifty-seven slides made from flashlights of the play and from well known religious and other paintings, all beautifully colored, will be shown. The pastor will give the story of the play and bring out the lessons it seeks to teach. This will be followed by a series of sermons on fools, during the coming weeks. All seats free. The public invited. Music by the double quartet on Sunday as follows:
Morning: "Comes at Times a Stillness." (Woodward); "No Shadows Yonder." (Holy City). (Gaul). Evening: "Light at Evening Time." (Speaks); "The Silent Sea." (Neidlinger).

The pastor makes this further announcement:
Church and Fellowship Night—Wednesday, 6 p. m., Supper. Come as families. Following the supper Prof. Wallace N. Stearns will meet his class for the study of "The Church in the Making." Our people cannot afford to miss this opportunity in Bible study. Bring Bibles and note books. Mrs. A. B. Applebee, with efficient helpers will have charge of the children who are invited and urged to come. This hour will also be used in the preparation of a pageant under the direction of Mr. John Kearns.

At 7:30 the mid-week prayer, praise and conference service will be in charge of the pastor. Judge John J. Reeve will speak on "What Message Has the Pentist piece of 'World Service' to Christians Called Methodists in the Light of the First Chapter of the Acts of the Apostles?"

WOODSON SOCIETY IN MEETING TODAY
C. W. B. M. of Christian Church at Woodson Met at Home of Mrs. R. R. Jones—Other Woodson News
Woodson, Jan. 4.—The C. W. B. M. society of the Woodson Christian church met Thursday afternoon with Mrs. Lucy Grunder as leader. The topic of the afternoon was "Spanish Speaking Neighbors." The program follows:
Song—"What a Friend We Have in Jesus."
Prayer—By Mrs. Grunder followed by sentence prayers.
Scripture lesson—Read by the leader, Mrs. Grunder.
An impersonation entitled "Elma Irelan From Mexico" was given by Mrs. Maud Spahnower; another entitled "Consuelo Perez Guerra" was given by Mrs. Zella Sheppard; also another entitled "Mary Elizabeth Fuller from San Antonio" given by Mrs. Mary Owings. These were greatly enjoyed by all present. The company was then favored by a selection from the Victrola, after which Mrs. Jones read a letter from Miss Bertha Parks "A Missionary in Nan-Kin China." She is supported by the Christian church at Virden, Ill. This was very interesting. Hidden answers were then asked for. The minutes of the last meeting were read and approved. Roll call, offering and benediction.
The hostess served light refreshments. The society has been divided into two groups for the purpose of building up the society: Mrs. Shirley and Mrs. Kliner were chosen as captains. Points will be given for the following: Attendance, dues, new members and subscription for the World Call. Let us each one work hard and get all the points we can and make this a success. Harriett Smith, secretary.

Mrs. William Birdsall and son Floyd of Wagoner, Ill., are visiting at the home of his daughter, Mrs. William Cooper and family and expect to visit other relatives near Franklin while here. Mr. and Mrs. I. W. Hanback of Peoria are guests at the home of his sister, Mrs. H. L. Owings and family.
Mrs. Nettie Megginson of St. Louis is visiting relatives and friends here this week.
Amos McCurley Jr., is spending a few days with his grandparents, Mr. and Mrs. Jesse Henry.

About 25 or 30 neighbors and friends of Mr. and Mrs. Edgar Arnold south of Woodson gave them a farewell party Thursday evening by going and spending the evening with them. The time was spent playing rook and a number of other games and all report a general good time. At a late hour refreshments were served and all departed wishing Mr. and Mrs. Arnold much happiness in their new home near Scottsville. Their many friends are sorry to have them leave this community as they have been quite a help in the church work.

CHURCHES

First Baptist Church—The newly elected superintendent, Mr. Byron Stewart, takes charge of the Sunday school on Sunday at 9:30 a. m. The retiring superintendent Dr. G. H. Kopperl will give him his support as first assistant. Pupils and teachers will lend their aid in making 1924 a big year in Sunday school advancement. Morning worship is held at 10:45 a. m. The pastor, Rev. A. P. Howells, will preach on the subject, "A New Year Assurance," Mrs. A. O. Wilder will sing, and Miss Olive Engle will preside at the organ. Baptist Church Sunday school meets at 2:30 p. m. Prayer meeting conducted by Mr. William Boston on Thursday night. The opening session of the third annual church School of Missions occurs at 6:30 p. m. in the prayer meeting room of the church. There will be three classes, adult senior and intermediate, studying three 1924 missionary text books for six Sunday nights. The first program for the lecture period, 7:30 p. m., will be a missionary address given by Rev. P. C. Metzger of Congo, Africa, who will describe the customs of that far away land. A cordial invitation to the public is given to attend these services. Prayer meeting is held on Wednesday night.

Bethel A. M. E. Church—R. H. Hackley, minister, 11 a. m., general class, 2:30 p. m., Sunday

vival meeting. There will be certain prayer meetings every evening next week. Sunday school at 9:30 a. m., William Bieber, superintendent. We are expecting one hundred men in Sunday school. We cannot have this number unless every one who received a letter come. Christian Endeavor at 6:45 p. m. All young people are urged to come. Remember that the luncheon and prayer meeting will be at the church on Wednesday evening.

First Church of Christ Scientist—523 West State street. Sunday morning service at 11 o'clock. Subject of lesson sermon, "God." Sunday school at 9:30. Wednesday evening testimonial meetings at 8 o'clock. The reading room, maintained in the church building is open each week day from 3 to 5 p. m. The public is cordially invited to attend the services and to visit the reading room.

Central Christian Church—Minister M. L. Pontius. Supr. of Bible school, Ben O. Roodhouse. Bible school at 9:30. Morning worship 10:45. Mr. Pontius will preach upon the theme, "The Majesty of Man's Spirit." Christian Endeavor at 6:30. Evening worship 7:30. "Promises of a New Christian Age" will be the theme of the sermon by the pastor. Special music both morning and evening under the direction of Madame Colard. Mr. Harold Hall will sing "Prayer Perfect" in the morning. Welcome.

Trinity Episcopal Church—J. F. Langton, rector; H. M. Andre, junior warden; Prof. J. G. Ames, senior warden; Prof. H. C. Caldwell, William Robinson, lay readers; R. C. Allen, Sunday school superintendent. Epiphany: early service 7:30; Sunday school, 9:30; Holy communion and sermon, 10:45; Vespers, 4:30. Monday evening 7:30, the vestry and their wives will give an epiphany party in the guild house. The congregation is invited. Mrs. Forrest, Miss Horsburgh and Miss Sapio will furnish music. Prof. Henry C. Caldwell will read "Twelfth Night."

Jacksonville Circuit and **Asbury**—Sunday services are as follows: Hebron, preaching 9:30; Sunday school, 10:30. Salem, Sunday school 10; preaching 11. Shiloh, Sunday school 10; no preaching. Asbury, Sunday school 10; preaching 7:00. All are cordially invited to attend one of the above churches. As the meeting is closed at Hebron we will have preaching at Asbury at the usual our, 7 p. m. Sunday will be the first services in the new year, so the pastor desires that every member be present. It takes the whole community to make the church go, so I will appoint each one as a committee to see to it that the pews are filled at the morning and evening services. The revival at Hebron closed with 12 conversions and 13 accessions to the church. I never had a community that enjoyed the revival services more than at Hebron, and this fine attention opened the door of the conscience to eternal truth which truth effected a great change in the psychology of the community life. Hebron has the chance of her life to be among the best country churches and we believe she will. H. R. Wardell, pastor.

Grace Methodist Episcopal Church—Harry B. Lewis, pastor. With the beginning of the new year this church thru its pastor sends cordial greetings to its members and friends. May happiness and prosperity be in every home! Our church is in the community to serve. To please us most kindly tell us how we can serve you best. Shall we not do well to spend much of our time in God's house on the first Sabbath of the new year? 9:30 a. m., Sunday school. Thomas V. Hopper, superintendent. A forward movement along all lines is planned for the school. Let every member be on hand for the start 10:45 a. m., the regular Quarterly

CHURCH SCHOOL OF MISSIONS

The third annual Church School of Missions opens at the First Baptist Church on Sunday, January 6th, and continues for a period of six successive Sunday nights. The assembly period is at 6:30 P. M. on the first Sunday evening in the prayer meeting room of the church, at which time the enrollment will occur and announcements made regarding the entire program as it will be carried out. Fifteen minutes is allowed for the opening exercise each Sunday evening, after which the members of each class assemble in their class room for the study of the missionary text books. These editions are the latest in missionary publications and have been recommended for 1924 study classes.

The Adult Class, in charge of Charles Story as instructor, will meet in the North room downstairs, and will complete in six Sunday nights the study of the text book, "The Child and America's Future," by J. S. Stowell.

In the South room the Intermediates will have as their teacher, Mrs. A. B. Williamson, who has been very popular with them in former years. The text book will be: "The Honorable Japanese Fan," by Margaret Applegarth. In the Senior group a new venture will be tried this year, when six leaders will be given one chapter each to discuss in the book "For a New America," by Coe Hayne.

At the close of each session a rapid fire quiz will be held. This is something entirely new in the school of missions but it will be given a thorough tryout this year.

The lecture period is the hour of the usual Sunday night service occurring at 7:30 p. m. A series of interesting missionary programs have been arranged that ought to make the six first nights of the new year exceedingly interesting. On Sunday evening January 6th Rev. P. C. Metzger, missionary from the Congo, Africa, will tell of some of his experiences in the Dark Continent. One week later over half a hundred stereoscopic slides will be used to bring the Baptist World Congress from Stockholm, Sweden, to Jacksonville, Ill. The intermediates will put on a missionary play, entitled "Garments of Glory" on Sunday, January 20th that promises to be something fine. A four reel motion picture called "Buddhists and Baptists in

KING WINTER ON JOB IN EARNEST

Mercury Slipped Down Way Below Zero Friday Night—Extreme Cold Prevails Thruout Country.

Real winter came to Jacksonville Friday. Beginning in the early hours of the afternoon the mercury kept a downward course and the zero mark was reached shortly after 6 o'clock. A strong wind from the west and north added to the discomfort of people out of doors and by midnight thermometers readings varied from 5 to 12 degrees below zero.

The city is undoubtedly having its share of the storm that has been sweeping thru the northwest. At Minneapolis last night the thermometer reading was 20 degrees below zero, and in cities further north the cold was even more extreme.

Weather with the thermometer showing a few degrees below zero is not a rare thing in this locality, but this year the change in temperature has come suddenly and last night everybody was shivering while frozen cars were quite in style in the parking spaces in the business district.

MISS THOMPSON NOW ON ORPHEUM CIRCUIT

SEEKS DEMOCRATIC NOMINATION FOR GOV.

James H. Kirby of Menard county is an announced candidate for the Democratic nomination for governor. Mr. Kirby in an open letter makes the State Register to task for favoring the candidacy of Judge Norman Jones of Carrollton. Mr. Kirby believes that in a primary contest that all candidates should be given an equal chance.

The Menard county man said in his platform that he is dry, believes in the enforcement of all federal laws and is opposed to the good roads bond issue proposal.

T. B. ASSOCIATION DISCUSSED WORK PLANS

SISTER MARY'S KITCHEN

By Sister Mary

The combination of fruit and meat in salad is rather unusual but delicious. The fruit lightens the dish and adds just the piquancy needed with the meat.

A tart fruit such as pineapple, canned of course, apricots or fresh oranges or grapefruit should be used. These fruits take the place of celery if celery is not at hand, but combine well with meat and celery.

A delicate meat or fish gains much from the fruit while the whole salad is leavened, as it were, and made to fit into any sort of a dinner or luncheon.

Left-over bits of chicken and canned fruit can be worked up in these salads to advantage.

Chicken and Pineapple Salad.
One cup diced chicken, 1 cup diced pineapple, hearts of lettuce, 1 canned pimiento, mayonnaise.

Combine chicken and pineapple and arrange in lettuce hearts. Mask with mayonnaise and garnish with tiny strips of pimiento.

Turkey and Pineapple Salad.
Turkey combines in the same proportion with pineapple that chicken does. The meat should be carefully diced and freed from skin and tendons. Nuts may be added to the meat if there is less than one cup.

Tongue and Apricot Salad.
Drain canned apricots from their syrup and cut in neat dice. Baby beef or veal tongue should be used. Boil tongue and skin. Cut in dice. Combine one cup diced apricots. Arrange on a bed of lettuce, mask with mayonnaise and garnish with crescents of pickled beets and threads of gherkins.

Tuna Fish and Tangerine Salad

One and one-half cups tuna fish, 1-2 cup diced celery, 2 tangerines, mayonnaise, lettuce. Combine fish and celery with enough mayonnaise to make moist. Arrange on a bed of lettuce and garnish with sections of tangerines. After peeling the fruit remove the skin from each section, being careful not to pierce the fruit. Then pull the back to the outside and tear or cut off. The covering of the outside of tangerines is so thin that it need not be removed.

The tongue and tuna fish salads could be used with brown bread and butter sandwiches for an afternoon tea or bridge.

A salad of sweetbreads, carrots and tangerines makes a delicious combination. The carrots should be used raw and cut in tiny dice. If the core is hard and watery use only the golden outer layer. The sweetbreads should be well cooked and blanched. When very cold cut in dice. To one cup of diced meat add one cup of diced carrots and one-half cup of diced tangerines. Let stand in a cold place for half an hour. Arrange on a bed of lettuce hearts and mask with mayonnaise.

An old mayonnaise is not, haps more "tasty" with these salads than a boiled dressing. A meat salad requires an oil mayonnaise and with the meat the fruit can carry it.

Annual remnant sale this morning. All remnants half price.

WHITE HALL MINISTER WEDS LITCHFIELD GIRL

Marriage of Rev. Edward L. James and Miss Mabel McBrain Took Place Recently in Litchfield—Death Claims Edward Halbert

White Hall, Jan. 4.—The marriage of Rev. Edward L. James and Miss Mabel McBrain took place in her home at Litchfield on the 27th ult., according to information filtering thru the home circles of Rev. James with the appearance of his bride before a local audience in readings in the First Baptist church Thursday evening in connection with the monthly social of the Men's Bible class.

She had before appeared here in a recital for the Daughters of Faith in the M. E. church during the past year, and when introduced on this occasion as Mrs. James the news began to flow in gossip channels. The bride comes from an old Litchfield family. She stands high as a reader and vocalist, and is quite active in Baptist church work in Litchfield, being chorister and a Sunday school teacher. Rev. James is a native of White Hall, being the son of Mrs. Martha James, who is 85 years of age. The family resided in Litchfield for several years, where he graduated from the high school and then took a theological course in Shurtleff college, Alton. He has held pastorates in Illinois and Iowa exclusively, and is at present conducting a revival at Christian, Edgar county, being unassigned at the present time.

The death of Edward Halbert, member of an old Greene county family, occurred at 1 a. m. Friday in his home on the Gregory ranch, five miles southeast of White Hall, the cause being double pneumonia. He was born west of Carrollton 65 years ago on the farm of his father, Albert Halbert, where at one time the early Halberts constituted a settlement of about 1,000 acres. There our subject grew up and where he remained until coming to the Gregory ranch one year ago. His first wife is dead, and his second wife and a son are the surviving members of his family.

Funeral services will be held at 2 o'clock Sunday in the Richwoods church, west of Carrollton, and the burial will be in the Richwoods cemetery.

OHIO RIVER STILL ON RAPID RISE

LOUISVILLE, Ky., Jan. 4.—Flood stage of 23 feet was passed by the Ohio River here tonight and the water continued to rise slowly.

Reports of flood or near flood conditions in river points over the state came in steadily, telling of property damage and inconvenience to many people with little or no indication of pending hardship or danger.

The hundred or more families residing in shipping port, river front districts here, had in some cases moved their possessions to higher ground.

At Owensboro the Ohio was rising nearly an inch an hour. Reports to that place from Indiana bottoms were that farmers were moving to the hills, taking livestock with them.

WHITE HALL CLAIMS PROMINENT CITIZEN

White Hall, Jan. 4.—Some men rise in community and business affairs without any perceptible recognition or realization upon the part of the average citizen. It is interesting to take stock of the citizenship as well as other things at this season.

The president of the White Hall chamber of commerce is C. A. Ruckel, and since Mr. Ruckel's elevation to the presidency of the White Hall National bank he is spending much time up town instead of at the White Hall Pottery Works, of which he is also president. These three presidencies are recognitions that fall to comparatively few citizens, but in the case of Mr. Ruckel he holds another presidency, that of the White Hall Theatre Co., operating the finest play house in western Illinois, which carried out improvements during the past year to the extent of \$10,000, an item that was not included in our White Hall review last Tuesday.

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; yet you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

Lewis T. Morrow of Alexander and Miss Rose Marie Fulton both of Alexander were united in marriage yesterday afternoon at 4:30 o'clock by Justice C. O. Bayha in the Unity building.

The groom is the son of Mr. and Mrs. W. E. Morrow, who reside in Alexander and the bride is the daughter of Mr. and Mrs. James Fulton also of Alexander. The newlyweds will reside on a farm near Alexander.

Leake-Thies

The marriage of Miss Jessie Thies, daughter of Mr. and Mrs. William Thies, and Allen Leake, son of Richard Leake of Joy Prairie, took place at Springfield, Wednesday January 2, at 5:00 o'clock, with the pastor of the Christian church officiating. The couple was attended by Miss Ruth Thies, the bride's sister, and Alfred Leake, a brother of the groom.

Mr. and Mrs. Leake will make their home on the groom's farm northwest of Jacksonville.

Leake-Thies

Allen H. Leake and Miss Bessie Thies, both of this community, were married Wednesday at the Christian church parsonage in Springfield, Rev. Rothenberg performing the ceremony. The groom is the son of Mr. and Mrs. Richard Leake of the Joy Prairie neighborhood, and the bride is the daughter of Mr. and Mrs. William Thies, residing west of the city. The young couple expect to make their home on the farm with the groom's parents.

Taylor-Mode.

Word has been received here of the marriage of Miss Arlinda Mode, Greenville, Ill. to C. B. Taylor of this city, at the Methodist parsonage in Edwardsville, December 26, with Rev. L. J. Duwel officiating.

The bride is a daughter of Mr. and Mrs. A. W. Mode of Greenville and was well and favorably known at the Loop Cafeteria as cashier for some time, and later was employed at Shanks's store. The groom is the manager of the L. B. Price company on Main street, and was formerly of St. Louis. The newlyweds will reside at 207 South East St.

FARM BUREAU NOTES

Cow Testing Association Work in Illinois—At the present time cow testing associations are operating in Boone, Crawford, DuPage, Edgar, Franklin, Jefferson, Marion, Jo Daviess (3), Kane (2), Knox-Warren, Lake, McHenry, McLean, Madison, Ogle, Stephenson, Effingham, Wayne, Whiteside, and Will counties. Six hundred and fifty or more dairy men are enrolled in this project and are keeping records on approximately 10,000 cows. The average production of these cows is nearly 100 per cent greater than the production of the average cow in Illinois. Members of cow testing associations soon learn to appreciate the value of good producing cows, and proper feeding, care and management. Some of the best dairy improvement work done in the state has followed the cow testing associations. Members of these associations are among the first to test their cattle for tuberculosis, to use good pure bred bulls, feed balanced rations and the like. Associations are in the process of organization in Macoupin, Monticomey, Coles, Adams, Carroll, and Jo Daviess counties.

Increase the Acreage of Legumes in Illinois—There is perhaps no single factor of more importance to the agriculture of Illinois than the growing of legumes. These crops are indispensable in maintaining and increasing the productive power of the soils of the state and in the economic feeding of live stock. Of such importance are legumes for these purposes, that the best results cannot usually be obtained unless they are grown on from 20 to 25 per cent of the crop land. In many sections of the state the right kind of legumes should be growing on at least half the crop land for the best results.

There are, however, many farmers who do not thoroughly understand the value and importance of legumes, and many whose farm lands have become so deficient in humus that it is practically impossible to grow them at all. Because of these facts the farmers of Illinois are devoting far too little of their crop land to legumes. In 1919, according to the 1920 census, the farmers of the state instead of growing legumes on a quarter or a half of their crop land, grew them only on 5.2 acres out of every 100 they cropped. Morgan county has only 2.4 per cent of its land in legumes according to the census of 1920. Jo Daviess county has 16.4 and ranks the highest of any county in the state on this point.

Closing Farm Account Books—K. H. Myers will be at the Farm Bureau office Monday to assist in closing the farm account books kept by the high school boys in this county. Mr. Myers is connected with the department of farm management and organization of the College of Agriculture.

Agricultural Statistician Here—Owen L. Dawson, assistant agricultural statistician, with headquarters at Springfield was here Friday collecting statistics as to the amount of livestock passing thru the local packing houses. While here he called at the office of the Powers-Beggs Co., where he was courteously received and given the information.

FORMER LOCAL MAN HAS HOME BURNED

William Dews, formerly of this city, but now located in Palmyra, had the misfortune to have his home destroyed by fire sometime Thursday night. Mr. Dews was formerly connected with the Dews-Caldwell Tire & Service Co., which had an establishment on South Main street. He is now in business in Palmyra.

The Dews home at Palmyra was the Caleb Capps property. It was occupied by Mr. and Mrs. William Dews, who had the second floor, and his brother, Dale Dews and family. Little of the personal effects of Mr. and Mrs. William Dews were saved. They arrived in this city yesterday morning to take up their residence with Mrs. Dews' father, Charles Reid, on West Lafayette avenue, until they can secure another residence in Palmyra.

SPRINGFIELD WON FROM JACKSONVILLE

Mitchell's Men Drop First Home Game of the Season to S. H. S. by the Score of 33 to 4—J. H. S. Failed to Get a Field Basket in the Entire Game.

Springfield High School basketball team, came to Jacksonville last night and swamped Coach Mitchell's quintet by the score of 33 to 4. Jacksonville was unable to make a field goal in the entire game.

The game did not carry the old time pep that the fans are used to seeing when these ancient rivals hook up and the showing of the local team was a great disappointment to the large crowd in attendance.

The first quarter started off with a rush and it looked like it would be anyone's game. Coach Baird's men were only able to cage one field basket and three free throws while the locals made three of their four points in this quarter.

In the second quarter the Capital City boys started away from the locals and at the end of the half the score stood 15 to 3. Only two field goals were made in this quarter the rest of the points coming on fouls. Springfield took advantage of Jacksonville's fouls and made most of them count while Coach Mitchell's men were unable to hit the basket. The play was fast during the first half and both teams were penalized a number of times.

The third quarter Springfield gathered in twelve points while Jacksonville made its final point.

BEARDSTOWN GIVEN TRIMMING BY ROUTT

Locals Win by Lopsided Score of 40 to 5—Visitors Clearly Outclassed—Game in Chandlerville This Evening

The fast Routt High team swamped Beardstown High on the basketball floor of Liberty Hall Friday night by a score of 40 to 5. Routt passed thru the Beardstown line at will for one field goal after another. H. Norris, at center led for the locals with a total of 12 points, while Murphy and Cooney both played a great offensive game.

During the first half Routt was hardly warmed up and only scored a total of fourteen points while the visitors were only able to annex one counter. The teamwork of Routt was rather poor in this half but in the third quarter their forwards speeded up and buried the Beardstown boys under an avalanche of baskets.

Marshall was the star of the Beardstown quintet and showed well thruout the game. Jacobs a guard being the only other visiting player scoring.

Routt sent ten men into the fray before the evening was over and all showed up well. Tonight the locals will go to Chandlerville where they will meet the first High team of that place and Routt is expecting a hard contest if they annex the game. Ten men will make the trip in autos.

The score:

WORK IN LAST BATTLE WON HIM YALE HONORS

WINSLOW LOVEJOY

Due partly to the magnificent work he played against Harvard on a wet, slippery field, but principally because he is a great player, Winslow Lovejoy was named captain of the Yale football eleven for next year.

Lovejoy is a power on defense and offense this year and was rightfully named on many All-American elevens. Lovejoy played his greatest game of the year against Harvard.

THE REFEREE By Albert Apple

Prejudices.
In 1797 a man was arrested for wearing one of the first silk hats in London. He was charged with wearing a tall structure having a shiny juster apt to frighten timid people. The magistrate considered this so menacing that he bound over the duke in the sum of \$2500 not to wear his silk hat again. Seems improbable. London Daily Mail, however digs the story from ancient records of the courts. A hundred years from now many of the bitter prejudices and bones of contention of today will seem as ridiculous as the silk hat episode of 1797 seems to us today.

After.
Star students—Beta Kappa men—of 10 years ago are out in the world now and earning an average of \$3,000 a year apiece. The best mixers among their classmates—the ones most active in campus and social activities—are averaging \$10,000 a year. So reports a professional at University of Michigan.

The star students, nevertheless, probably are more genuinely successful than the mixers. Success is not altogether in money, not by a long shot. Income is not the only outcome.

Mixers.
Not surprising, that students who are "goodmixers" have found it easier to make big incomes than men of mental superiority. It doesn't read this way in the platitudes, but personality and influence are as important as natural ability, in getting ahead.

A grouchy or otherwise disagreeable disposition is as much a handicap as being born with something lacking in the upper story. The lovable characters who fail are in the minority. And then their only failure is financial.

Power.
H. G. Wells recently wrote in the American Magazine, that he considered Lord Northcliffe, the mighty newspaper owner a failure. Northcliffe rose from nothing. He got the power, all right. He failed, Wells argues, in not knowing what to do with the power after he got it.

Power carries with it responsibilities and a code of honor as to using or abusing the power. That's why Providence entrusts power to so few people. Giving power to some would be like sharpening a wolf's fangs or putting a bull in a china store.

Success.
What is success? It is doing the best we can with our abilities and opportunities that are made available to us. Yet, no matter what he may accomplish in life in a material way, no man is really successful unless he can look back at the close of life and say: "I have improved myself. I leave this world a lot better person than I was when I matured sufficiently to become sensible."

These two thoughts, for the person whose New Year resolutions are slipping.

Political.
It's taking a lot more stage setting and clacking on the part of the political bosses, to stir up enthusiasm over the coming national elections than was the case four years ago.

Each election people seem less interested in politics than the time before. If you doubt this consult any old man who recalls the torchlight processions and red fires of years long since.

The people have already been ballyhooed into the same sideshow many times and are ready for a new act. They usually go in expecting a new act, and find it's the same old Dog-Faced Boy.

MURRAYVILLE MEETS DOUBLE DEFEAT

Franklin Teams of Both Boys and Girls Win—Both Hard Fought Games.

Basketball hoopers of the Murrayville High school met a double defeat last night at Murrayville, when the high school girls of Franklin defeated the high school girls of Murrayville by the score of 6 to 4. The game between the boys of the two schools resulted in a victory for Franklin by the score of 20 to 12.

Both games were hard fought, the boys especially putting up a speedy article of basketball. This game was the fastest that has taken place in Murrayville this season and until the middle of the last quarter neither team had the advantage. At the end of the half Murrayville was one point ahead, the score being 8 to 7 and owing to the fastness of the game it was rather rough. For Franklin, Reed and Rawlings featured and Wright and Carlson were the high point makers for Murrayville. The score:

	F.G.	P.T.	Tls.
Franklin	9	2	20
Murrayville	2	0	4

MAJOR WILL TAKE SMALL TEAMS SOUTH

CHICAGO, Jan. 4. (AP)—The mounting cost of sending recruit players thru the paces on spring training trips has resulted in major league club owners deciding to take smaller squads south this spring, for the conditioning grind preliminary to the 1924 season.

In former years a baseball club could complete its spring training on less than \$10,000. This even included special trains.

This spring, however, recruits who have not at least an outside chance to remain with the club will not be taken to the training camp at Winterhaven, Fla. Harry Grabner, secretary of the White Sox said. A squad of about 32 or 33 players will report to Manager Frank Chance March 2nd.

With nine teams training in Florida the southeastern part of the country will see more baseball this spring than ever before.

The Nut Cracker by Joe Williams

A Paris sprinter ate horse meat and won a 100-yard dash. Now he will start eating elephant chops and go in for the marathon.

Hans Wagner, eminent author writes that all left handers are not eccentric. Of course not, many of them are just plain nuts.

If the January white sales don't develop an opponent for Harry Wills he might as well pack up his gloves and quit for good.

The announcement that first prize in the New York exhibit went to a lavender-blue Persian cat is incomplete. It fails to reveal what the judges drank.

No matter how short they make the new schedule, it threatens to be much too long for the fans in Boston and Philadelphia.

Stung by criticism of its weak schedule, Cornell has taken on the mighty Rutgers eleven, and almost any minute we expect to hear that Millsaps has been added also.

We are told that the prize fighting game is in danger of being killed by bad decisions. We trust this is more than just a promise.

Mothers and daughters will play in a golf tournament next summer. If a reporter makes the error of mistaking one of the mothers for her daughter he will not be asked to correct it.

Radium is now selling at \$35,000 a pound. It will soon be as rare as natural complexions and good curve-bald pitchers.

Winning horse in Havana paid \$702.90 for a \$2 ticket. This will do much to revive faith in the belief that bunnies lay Easter eggs.

About the only good we can see in this religious debate between the modernists and the fundamentalists is that it is gradually forcing the Mah Jongg scores out of the papers.

WAVERLY LOSES IN VERY CLOSE GAME

Chesterfield Winner by Close Score of 17 to 16—Game Tied Several Times—Final Point Made on Free Throw

In a game that was a thriller from the time of the first toss until the final whistle, Waverly was forced to concede the game to the visiting Chesterfield quintet by the very close score of 17 to 16.

At the end of the first quarter Waverly led by 8 to 0 but the graceful Chesterfieldians forgone their manners while visiting and stepped out with the result that at the end of the half they led by 11 to 9. Waverly then evened it up, 11 all. Again near the finish it was tied up at 16, Chesterfield winning a point on a free throw near the end of the game.

Next Friday, the 11th, Waverly will go to Virden for a game with the High team of that place, and again on the next day, Saturday, they will play in Rushville against the Rushville high.

The score:

Market Report

By The
Associated
PressAFTER IRREGULARITY
PRICES MOVE UPWARD

FINANCIAL
Total stock sales \$64,200
shares.
Twenty industrials averaged
95.40; net gain .52.
High 1923, 105.38 low 85.76
Twenty railroads averaged
88.83 net gain .21.
High 1923, 90.51; low 79.53

NEW YORK, Jan. 4.—Stock
prices moved upward today after
an early period of irregularity but
except in the case of a few spe-
cialties, the net gains in most issues
were limited to fractions.
Selling pressure was again in
evidence at the opening, particu-
larly in the oil, independent steel
and motor shares, but this was
lifted before noon on a resumption
of successful pool operations in
other sections of the list. One of
the individual features of the ses-
sion was general electric which
again crossed 200 for a net gain
of more than six points on re-
ports that 1923 earnings will total
\$18.8 a share and that an early
capital readjustment was likely.
American Can moved up 1 point
to above 104 but United States
Steel, Baldwin and Studebaker
showed only fractional gains.

Railroad shares developed
strength during the afternoon.
Northern Pacific, Union Pacific,
the Rock Island preferred issues
and St. Louis Southwestern all
closing a point or so higher. Car-
loadings for the week ended De-
cember 31, showed a further fall-
ing off, but this was regarded as
seasonal, current loadings being
well above those of a year ago.

Pan-American Oil issues made
slight recovery from recent weak-
ness on the official denial of re-
ports of a material decline in Mex-
ican light oil production. Reports
that all Mexican fields were now
in the possession of rebel forces
was construed as meaning that the
revolutionists held the territory
in which they were being confis-
cated. French francs touched a new
low at 4.84, but made partial re-
covery later.

Call money opened at 4 1/2 per
cent but eased to 4 1/4 before the
close.

Today's market saw a renewal
of liberty bond buying for the ac-
counts of both the British govern-
ment and the American govern-
ment, the latter purchasing
third liberty 4 1/2 for the most part
while the English buying was said
to be largely second and fourth
4 1/2.

Total bond sales par value \$11-
552,000.

BRADSTREET'S WILL SAY TODAY

NEW YORK, Jan. 4.

Bradstreet's tomorrow will say:
"Except for the advent of colder
weather in the Northern half
of the country helping retailers in
reasonable goods and the coal
trade and a rather cheerful trend
of reports from the steel trade due
to some good buying by domestic
automobile manufacturers and
some foreign railways, the general
trend of reports indicate quiet
conditions attending the turn of
the year."

"Salesmen are generally off the
road and wholesale and jobbing
business is at a low ebb. Industry
is quiet, with many year-end sus-
pensions of operations noted in
the iron and steel and automobile
trades. What reports are ob-
tainable as to year-end stock tak-
ing are in the main cheerful, and
altogether frequent mention is made of
inventory values being rather
smaller than a year ago."

SCARCITY CAUSES
CORN TO SOAR HIGH

CHICAGO, Jan. 4.—Searing
prices of corn today lifted the
value of all grain. The rise in
corn was chiefly due to scarcity of
receipts. Wheat closed firm 1/2
to 1 1/2 net higher; May 1.08 1/2
to 1.08 1/2 and July 1.06 1/2. Corn
after reaching new high price re-
cords for the season finished at 1 1/2
to 2 1/2; gain with oats 1/2 to 3/4
to 1 up and provisions varying from
a shade decline to 5 cents advance.

Before the bulge in the corn
market began, wheat prices in
Chicago had a downward tendency
then sympathy with weakness of
wheat quotations at Liverpool,
where offerings of Canadian
wheat were said to be cheaper and
it was reported Argentine ship-
ments had enlarged.

May delivery of wheat closed at
the highest price this week. In
this connection it was pointed out
that shipments from Chicago the
last few days have exceeded the
receipts and that apparently in-
terior millers were turning to pri-
mary markets to obtain supplies.

Talk was current furthermore
that wheat as well as corn may be
on a strict domestic basis before
the end of the crop year.

Big broad trading in corn was
witnessed and notwithstanding
that rural offerings became some-
what larger as the market went
upward the total remained much
below what is usual for January.

Particular stress was laid on the
fact that in the northwest espe-
cially there was a notable falling
off in the volume of receipts.

Oats followed corn upgrade,
with May oats at nearly the sea-
son's top price. Commission house
selling of lard held down provi-
sions.

**LIGHT AND POWER
FACTS ARE GIVEN**

Public Service Corporation Official Tells About Marvelous Development of Electricity in Past Thirty Years.

An interesting presentation of the development of public utility service especially in electrical lines, was given at the Rotary club luncheon Friday, by Elmer Clayton, official of the Central Illinois Public Service Corporation. Mr. Clayton explained that development in electric light and power service has practically all come to pass in thirty years and that marvelous strides have been made in twenty years.

It was only a comparatively few years ago that the largest electric plant in Chicago was the Harrison street station. It was then thought that current could not be satisfactorily transmitted more than about a mile and belief was that to supply a great city like Chicago that the practical thing would be to establish a plant in about every square mile of area.

Then in later years came the discoveries and development to show that great centrally located plants can provide energy at much lower cost per kilowatt than is possible thru small plants operated separately.

The corporation which Mr. Clayton represents serves about 300 cities in Illinois, operating from large centrally located plants. There are in Illinois transmission lines with a total mileage of 6500 while no other state has more than 4,000 miles.

The statement was also made that of the 10,000,000 users of electrical energy in the United States that 1,000,000 are resident in Illinois, so that the Prairie state is the home of one-tenth of the users of electricity.

The speaker gave figures to show how development has resulted in great economies in production costs and today the number of pounds of coal required to produce a kilowatt of electrical energy is only about one-sixth of the quantity used twenty years ago.

It was shown that while the cost of coal has more than doubled, and that extensive freight increases have come, together with numerous advances in the cost of labor, that because of invention and efficiency methods the production cost of electricity has decreased.

It was stated that prices of farm products and for electrical energy are the only two commodities that are on lower levels now than in pre-war times.

Mr. Clayton believes that it is because of this efficiency and lower power costs that American manufacturers are able to pay much higher wages than obtain

**UNITY WORKERS MET
WITH MRS. DARWENT**

Society of Woodson Church Held Interesting Meeting — Charles Taylor Seriously Ill.

Woodson, Jan. 4. — The Unity Workers of the Woodson Presbyterian church met Thursday afternoon at the home of Mrs. Floyd Darwent. The session was opened with the singing of "What a Friend We Have in Jesus." Miss Rannells led in prayer after the 23rd Psalm had been repeated in concert. The president, Mrs. J. H. Hoagland, then wished the members a Happy New Year. The roll call was answered by the reading of New Year's wishes.

During the business session it was decided to serve a chicken dinner at the Presbyterian manse next Wednesday, Jan. 9. Two members were added to the organization during the meeting.

Darwent was a feature of the program. Another reading entitled "1924" was given by Mrs. Thomas Butler. The formal meeting closed with the singing of "Nearer My God to Thee" and the repeating of the Lord's prayer in concert. During the social hour which followed the hostess served delicious refreshments.

Charles Taylor of Woodson who is suffering from abscesses of the throat, is in a more serious condition today. His physicians fear blood poisoning.

Miss Bell Craig of Woodson who is a patient at Passavant hospital was not so well today. She would be glad to have her friends call on her at the hospital.

**WELL KNOWN ASHLAND
COUPLE SOON TO WED**

Engagement of Miss Marie Hagard and Roy Kline is Announced at Luncheon at Hexter Home

Formal announcement was made yesterday of the approaching marriage of Miss Marie Hagard and Roy Kline, both well known young people of the Ashland community. The event was made public at a one o'clock luncheon given by Mrs. Fred Hexter of Ashland, at which twelve of the most intimate friends of the bride-to-be were present. Those who attended the announcement party included: Miss Louise Gates and Mrs. Lloyd Fry, both of Jacksonville; Mrs. Nell Terhune of Petersburg, and Mrs. Uebel Snellair, Mrs. Harry Lehman, Mrs. John Beggs, Mrs. Glen Strubling and Miss Helen R. Kirk, all of Ashland.

Miss Hagard has made her home for a number of years with her uncle and aunt, Mr. and Mrs. W. S. Williams in Ashland. The groom is a prosperous young farmer residing east of Ashland. The new bungalow on the farm, in which the young people will make their home has already been completed, and it is understood the wedding will take place soon, the definite date has not been announced.

Miss Hagard and Mr. Kline are both graduates of the Ashland high school, and are well and favorably known among a wide circle of friends in that community.

During the installation, Miss Fern Haigh presided at the piano and the ceremony of installation was given in a very impressive manner and the new officers entered into their duties with much enthusiasm.

The officers are as follows: W. M.—Abbie P. Spillman. W. P.—Leonard E. Staff. A. M.—Nellie Haneline. Treas.—W. R. Rabjohns. Cond.—Cora Littler. A. Cond.—Gertrude Biggs. Marshall—Dollie Reeve. Marshall—Erna Kendall. Organist—Leah Caldwell. Adah—Mabel Segner. Ruth—Grace West. Esther—Cora Corbridge. Martha—Alice Goodall. Electa—Sophia Brown. Warder—Anna Carter. Sentinel—William R. Haneline.

Post Worthy Matron, George B. Kendall on behalf of Wilbur Chapter, presented to Mrs. Nellie Haneline, retiring Worthy Matron, a Past Matron's jewel, which was accepted with appropriate remarks by Mrs. Haneline.

The newly installed Worthy Matron, Mrs. Abbie P. Spillman and the retiring matron, Mrs. Nellie Haneline, presented to Mrs. Dora Lowdermilk and Miss Leah Caldwell appropriate favors in appreciation of their services in the installation ceremony.

At the close of the Chapter refreshments were served by the committee under the direction of Mrs. Minnie Haneline and Mrs. Lena Rabjohn to the large number which were in attendance.

**WOODMEN PLANNING
FOR INSTALLATIONS**

Unity Grove Camp, No. 132, M. W. of A., held its regular meeting Friday night at Woodman hall, south side the square. There was a large attendance despite the severe cold weather.

There was one initiation, Carroll Hughes being adopted into full membership in the order. Following the business session a social hour was enjoyed during which the members discussed informally the activities planned for the winter months.

It was unanimously decided that the lodge accept the invitation extended by Star Camp R. N. of A. to participate in a joint installation of officers on January 15. As now arranged the two camps of Modern Woodmen and the two Royal Neighbors camps will take part in the joint installation. It is expected that several state officers of these lodges will be present to act as installing officers.

Each of the lodges interested has a committee at work with the joint committee on a program for the evening and a big night in Woodmen circles is promised.

**Discussed Scientific
Themes**

The 75th anniversary meeting of the American Association for the Advancement of Science composed of thirty of the largest scientific organizations of the United States and Canada which met at Cincinnati between the dates December 27 and January 3, was attended by Miss Harriet Witmer, one of the science faculty of I. W. C., who gives an interesting review of that meeting.

Prof. James McMurich of Toronto is the retiring president of the association, with Dr. J. McKeen Cattell of Garrison-on-Hudson succeeding him to the office. Dr. Cattell is unusually prominent in that he is the man who invented the intelligence test, and is the first man to be awarded the professional title of Psychologist. He is editor of the magazines, "Science" and "The Scientific Monthly," and "School and Society."

Among the hundred or more scientific topics discussed was that of the Boll Weevil, characterized as the only insect that has outlived man.

International radio language was advocated, as was an international language for the blind, with the Esperanto suggested as the most plausible. It is the opinion of the conference delegates that our country has only witnessed the "kindergarten of science," and that discoveries beyond our present conception will be made. The race of people on the American continent according to the statement of Dr. Ales Hedlicker, anthropologist, is not more than 10,000 years old.

Among the distinguished speakers at the conference was Dr. McLeod, discoverer of insulin, and winner of last year's Nobel prize.

Over three thousand people attended the association meeting.

PROBATE COURT

In the estate of William T. Dunn the petition for probate of the will was set for hearing, February 4, 1924.

The inventory was approved in the estate of Ernest G. Dewesse and the petition to sell personal property at public sale allowed.

The inventory was approved in the estate of Sarah Delano.

In the estate of Henry Althorn the inventory was approved and the petition to omit appraisal allowed.

In the estate of Thomas S. Bond the entry of appearance and waiver of notice of all heirs and legatees was filed, the final report approved and the estate closed and the administrator de bonis non discharged.

In the estate of Charles H. Gibbs the widow's relinquishment was filed and approved.

**BITS SHOULD BE WARNED
BEFORE BRIDLING HORSES**

A local veterinarian has suggested that during the cold weather, the bridle bits should be warmed in some manner before they are placed in horses' mouths. Such a practice saves the animals much discomfort and even pain caused by the sting of frosty bits. If possible the bridles should be taken into the house and left awhile by the stove before the bits are used. If this cannot be done, the bits should be dipped in water and left there a few minutes, to take the frost out of the steel. At least the warm breath should be blown over the bits before they are placed between the animal's teeth.

**ARRESTED ON LIQUOR
SELLING CHARGE**

Levi Postley is in the clutches of the law once more as the result of his alleged violations of the prohibition laws. Deputies from the sheriff's office, Burley Jones, Henry Strawn and Edgar Jones armed with a search warrant proceeded to Postley's home, at 518 Rockwell street, yesterday afternoon about 5 o'clock. About two gallons of wine and a quantity of wine was found on Postley's premises and he was lodged in the county jail. Postley was arrested some time ago and was fined \$100 for boot-legging.

**SEVERAL RESIDENCE
PROPERTIES SOLD**

Interesting real estate transactions made recently include the sale by Dr. G. R. Bradley of his home at 1429 Mound avenue, known as the old Browning place, to Henry Zahn of Arenzville. In turn Dr. Bradley has purchased the Taylor residence at 1535 Mound avenue, from Mrs. George Taylor, which he intends to make his home. Mrs. Taylor bought from J. J. Wall the newly remodeled property at 515 West College avenue, where she will take up her residence in about a week.

**WORLD NOTABLES MET
AT CONFERENCE**

Local Delegates Returning From Indianapolis Gathering — Miss Mary Johnston Gives Idea of What Conference Meant.

The Student Volunteer Conference held at Indianapolis, which has attracted nation-wide attention because of the significance of its message, and the vast number of students attending it from schools all over the world, came to an end yesterday, and the delegates, including those from the Jacksonville colleges, are returning home.

Miss Mary Johnston, faculty member of the nine delegates sent by the Woman's College, writes the following concerning the conference. The meetings were held in the Cagle Tabernacle, with a seating capacity of 10,000, which was practically filled by the student delegation and speakers. Registration was carried out in the Union Station.
